The Sycamore Quadplex is a four-unit, two-story product that is right-sized for many families and roommate-living. Each floor contains two units, each with two bedrooms and two bathrooms. The open-concept living/dining/kitchen layout has ample storage, and each unit has separate laundry. A shared entrance, stairwell and front porch gives the structure great curb appeal and the ability to fit right into a variety of infill situations.

Price includes transportation & crane set within 50 miles of the Indianapolis factory.
